### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3,6-11,14-15, and 18-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Gibson (#5,238,293).

Gibson shows an apparatus comprising a box-shaped seat liner (10) having an open top side and at least one opening (58) and having a pocket (40) disposed on an external surface of the of the seat liner.

With claims 6-7, an attachment mechanism (46) is provided, which can be used to releasably attach to a toy.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3636

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 4, 12-13, and 16-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gibson (#5,238,293) in view of Cohen-Fyffe (#6,129,417).

Gibson discloses the claimed invention except for apparatus to have at least one opening and a sleeve. Cohen-Fyffe teaches a seat liner comprising two openings with two sleeves (30) to allow a seat belt to pass through. It would have been obvious to one of ordinary skill in the art at the time the invention was made to employ two opening with two sleeves (30) of Cohen-Fyffe's invention to Gibson's seat liner, in order to allow a seat belt from the shopping cart to pass through for use to retain the child in place.

### ***Remarks***

The examiner has reviewed and considered the applicant's comments in the Amendment, filed on September 9, 2005. Accordingly, this Office action is considered to be Non-final.
